

KHIE Service Transformation

Summer 2018 ► Participant Update

KHIE is currently hard at work configuring a new, robust HIE solution which provides KHIE Participants the enhanced features and functionalities that enable healthcare providers to access valuable health information **when and where** it is needed to achieve high quality patient outcomes.

Coming Spring 2019

Alert & Event Notifications

Inform providers about specific healthcare event(s) that have occurred with specific patients in their care.

Customizable Health Record

Ability for users to customize the display of essential patient data in a functional and easy-to-use format.

eKasper Integration (PDMP)

Ability for users to view eKasper data in KHIE.
